HTML, CSS, JavaScript, Node, React, Express, MySQL, Agile Development, Document Object Model (DOM) APIs, Web APIs, User Authentication, OAuth, Heroku, GitHub, Jest

PROFILE

From a young age, creativity was always something that was encouraged, especially growing up in a musical family. However, my past work hasn't really allowed me to fully utilize that skill. After seeing my brother graduate from BrainStation and break into the tech field, I figured that I would do the same. This field allows me to fully express the creativity and problem-solving traits that I've always wanted to, and I believe that they will allow me to succeed.
